

To All Carriers Filed to Write Workers' Compensation Coverage:

Please be advised that all carriers filed to write Workers' Compensation coverage in the State of Tennessee must annually file their Loss Cost Multiplier (LCM) with the Commissioner, through the Actuarial Service Section of the Division of Insurance on March 1, as prescribed by §56-5-306(c)(d). This is true even in cases where the modifier is not changing. Multipliers must be actuarially justified and certified by a member in good standing of the Casualty Actuarial Society. Inquires concerning the filings should be made to Michael Shinnick, at 615-741-0472, or by email: Michael.shinnick@state.tn.us.

Beginning on 3/1/09 LCM filings, a new edition of the Summary of Supporting Information form is required. The form may be obtained through SERFF filing requirements for TN Workers' Compensation or is available on this same website.
